## Postponement of Hellenic National Chapter meeting

The Panhellenic Symposium on Porous Materials (PSPM2020), which hosts the Hellenic InterPore National Chapter (HINC) meeting, has been postponed due to the COVID-19 measures. The same applies for the HINC Kick-off meeting.

The meetings were originally scheduled for next week. The event is likely to be rescheduled towards mid-September 2020. Once a date has been fixed, it will be announced through the regular channels.
