

Postdoc position in China:

There is a postdoc position on large-scale simulation of free flow-porous media flow (oil reservoir-pipeline flow coupling). The research will be carried out in the framework of a joint project with partners from Shenzhen Research Institute of Big Data, Shenzhen University, South China Normal University, Tsinghua Univ, and Academy of Mathematics and Systems Science of China.

The candidate must have a PhD degree with strong background in modelling and MPI parallelization. The appointment can start immediately and will be for two years. The annual salary may vary between 250,000 Yuan and 450000 Yuan, depending on the experience of the candidate.

For more information, contact Prof. Chensong Zhang (zhangcs@lsec.cc.ac.cn).
